

# Multi Level Marketing and the IRS: What Independent Business Owners Need to Know

Recently, the IRS released new audit procedures that affect those who are distributors or representatives in Multi-Level or Network Marketing companies. These include members of such companies as Mary Kay, Pre-Paid Legal, Shaklee, Young Living Essential Oils, Body by Vi, MonaVie and many, many others. During this two hour workshop, we'll go over these new regulations and you'll discover how they affect your business tax reporting and accounting.

Whether you're marketing makeup or motor oil, laundry detergent or vitamins, candles, coffee, tools or jewelry; if it's with a Network Marketing style company, your independently operated business is subject to these new regulations.

## At this workshop you'll learn:

- What the new regulations mean for MLM representatives.
- How to protect your business expenses when the IRS comes knocking.
- How to prove to the IRS that you are really in business to make money.
- The importance of teaching your down-line how to document their own businesses properly.
- And More!
